

PRIYA PARMAR

MERN Stack Developer

 priyaparmar5501@gmail.com  +91 6354014027  linkedin.com/in/priya-parmar-b30b57192
 Ahmedabad, Gujarat, India

PROFESSIONAL SUMMARY

Dedicated MERN Stack Developer with 3.5 years of experience (including internship) building and maintaining scalable full-stack web applications. Proficient in React.js, Node.js, Express.js, and MongoDB with strong expertise in REST API design, payment gateway integrations (Razorpay, InstantPay), and real-time systems. Experienced in delivering multi-role platforms across diverse domains including driver management, transport, laundry, and CRM. Proven ability to contribute in Agile teams, mentor interns, and drive clean, performance-optimized code.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL
Frontend	React.js, Next.js, Redux, Vite, Bootstrap, Material UI, Tailwind CSS
Backend	Node.js, Express.js, NestJS, REST APIs, JWT Authentication
Database	MongoDB, Mongoose ODM, MySQL, SQL Server
Cloud & DevOps	AWS S3, Git, GitHub, Vercel (basic)
Integrations	Razorpay, InstantPay, Firebase (FCM, Auth), Google Maps API
Tools	Postman, VS Code, Jira, GitHub Actions
Practices	Agile/Scrum, MVC Architecture, Code Reviews, Mentoring

WORK EXPERIENCE

Software Developer

Apr 2024 – Present

MKS Digitech LLP | Ahmedabad, India

- ▶ Developed and maintained scalable web applications using React.js and Node.js/Express.js, handling both frontend and backend of in-house product platforms.
- ▶ Integrated AWS S3 for file and media storage across projects.
- ▶ Implemented payment flows using Razorpay and InstantPay, including webhook handling, transaction reconciliation, and error recovery.
- ▶ Mentored interns by assigning tasks, conducting code reviews, and resolving technical blockers — improving team delivery speed.
- ▶ Collaborated in Agile sprints (standups, planning, retrospectives) to consistently deliver features on schedule.

Junior Software Developer

Jan 2023 – Mar 2024

eSparkBiz Technologies Pvt Ltd | Ahmedabad, India

- ▶ Started as an intern and transitioned to a full-time role, contributing to frontend and backend development using React.js and Node.js across multiple client projects.
- ▶ Integrated Razorpay payment gateway for e-commerce and service-based client projects, including order lifecycle management.

- ▶ Gained hands-on experience in debugging, performance optimization, and clean coding practices under senior developer mentorship.
- ▶ Participated in Agile standups and sprint planning to ensure timely, quality delivery across multiple concurrent projects.

PROJECTS

Obhau – School Transport Management Platform

Tech Stack: React.js (Vite), Node.js, Express.js, SQL Server, Google Maps API, Razorpay

- ▶ Built a real-time school transport management platform with Admin, Client, Parent, and Driver role-based interfaces for live student commute monitoring.
- ▶ Developed frontend modules (React.js + Vite) and backend APIs (Node.js/Express.js) for route assignment, driver scheduling, and live GPS tracking via Google Maps.
- ▶ Integrated Razorpay for transport fee payment processing and managed student documents and trip reports.
- ▶ Implemented real-time vehicle tracking with map rendering and push notification alerts to parents on student pickup/drop events.

Oterri – Laundry Service Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB, TypeScript, Firebase, AWS S3, Razorpay, InstantPay

- ▶ Developed a multi-role laundry platform (Admin, Vendor, Customer, Rider) with React.js frontend and Node.js backend, enabling end-to-end order and delivery management.
- ▶ Built RESTful APIs for order lifecycle, user profiles, pricing, and real-time status updates using Express.js and MongoDB.
- ▶ Integrated Firebase Cloud Messaging (FCM) for instant push notifications across all roles and AWS S3 for managing laundry receipts and media.
- ▶ Implemented Razorpay for customer payments and InstantPay for vendor payouts, ensuring secure and traceable financial flows.

O'tick – Driver Management System

Tech Stack: Node.js, Express.js, MongoDB, JWT, Face Recognition API, Firebase FCM, REST APIs

- ▶ Contributed to backend development of a multi-role driver management platform with Admin, Owner, and Driver roles — the platform also has a mobile app (backend-served).
- ▶ Built RESTful APIs for Owner job post creation, driver applications, shortlisting workflow, and offer management including working days, salary, and shift details.
- ▶ Developed offer negotiation flow where drivers can accept, reject, or counter an Owner's offer; once accepted, the driver's job shift and attendance schedule is auto-configured.
- ▶ Implemented face authentication-based punch-in/punch-out system with geo-radius validation — drivers can only mark attendance within a defined location boundary.
- ▶ Built payroll and salary management APIs covering monthly salary calculation, leave deductions, payout processing, and salary history accessible on the driver's dashboard.
- ▶ Developed driver-side APIs for multi-job-post applications, offer negotiation, leave management, shift schedules, and monthly salary summary views.

Goals – Sales Performance & CRM Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB, JavaScript

- ▶ Built and maintained key frontend features including interactive dashboards, lead tracking modules, and sales performance visualizations using React.js.
- ▶ Developed RESTful APIs for goal tracking, user management, reporting, and activity logs using Node.js/Express.js with MongoDB.
- ▶ Handled bug fixes, performance optimization, and timely feature enhancements across the platform.

EDUCATION

MSc. Computer Applications & IT

2021 – 2023

K.S. School of Business Management and Information Technology, Ahmedabad

BSc. Computer Applications & IT

2018 – 2021

K.S. School of Business Management and Information Technology, Ahmedabad

KEY HIGHLIGHTS

- ▶ Payment gateway expert — integrated Razorpay and InstantPay across multiple production platforms with webhook handling and reconciliation.
- ▶ Built complex backend systems including face-auth attendance, geo-radius punch, payroll, and multi-role offer negotiation workflows.
- ▶ Mentored junior developers and interns, conducting code reviews and improving team productivity.
- ▶ Delivered 4+ full-stack production platforms across driver management, transport, laundry, and CRM domains.
